## Regulatory compliance software for the healthcare industry

BMI SYSTEM offers software solutions for companies wishing to tackle the rapidly changing legal requirements of the pharmaceutical industry, the medical device industry and the cosmetics industry.

- **Manage** events, payments, contracts and grants & donations
- **Meet** public disclosure requirements for detailed and aggregate spend
- **Ensure** full traceability with embeded reporting tools
- **Control** automatically your Fair Market Value
- **Limit** disputes & manage potential risks
- **Comply** with local regulation and monitor at a global level

BMI SYSTEM software solutions enable your organisation to meet transparency requirements regarding your relationships with HCPs & HCOs.

Our highly configurable IT programmes are tailored to match the specific requirements of healthcare companies operating in countries with unique compliance, regulatory and transparency laws.

BMI SYSTEM software solutions facilitate the management of three critical organisational components, namely, [Governance](#), [Risk Management](#) and [Compliance](#).

### Governance

To improve decision making processes, BMI SYSTEM solutions provide a global view of your activities, coupled with an easy and immediate access to information.

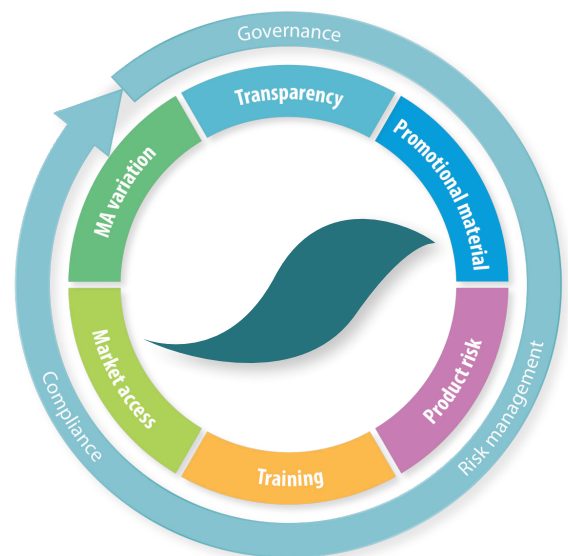

### Risk Management

The BMI SYSTEM solutions allow companies to catalogue their information and provide a functional view of the organisation to facilitate the identification, analysis and management of potential risk factors.

### Compliance

The centralisation of all your best practices, rules and regulations within a single software platform allows easy fulfilment of compliance requirements.

## Business & technical expertise

### Business Expertise

Beyond BMI SYSTEM's extensive experience within the Information Technology (IT) sector, the team possesses in-depth knowledge of the healthcare industry, which delivers a top-class business and technical service.

### Change Management

BMI SYSTEM is able to offer a comprehensive global solution. Each solution is tailored to your organisation's needs, ranging in scope from analysis and optimisation of your processes, to training and ongoing, long-term support.

### Flexibility

BMI SYSTEM configures its solutions to your specific organisational requirements. All our software solutions can easily be integrated with existing IT systems already deployed within your organisation.

### Security & Reliability

BMI SYSTEM guarantees the security and reliability of its own processes and software solutions, due to thorough testing, quality control, full audit trail and continued updates and modifications to ensure optimisation of the product.

### Cost & Time Efficiency

BMI SYSTEM solutions are developed to ensure maximum cost effectiveness and aim to minimise time-consuming processes. BMI SYSTEM works with individual companies, both large and small, to ensure that customer budgets are respected and tailor-made solutions are designed to take into consideration individual time constraints and deadlines.

## Our solutions

BMI SYSTEM offers three integrated software solutions tailored for the specific regulatory requirements of the healthcare industry.

Solution dedicated to  
the pharmaceutical industry

Solution dedicated to  
the medical device industry

Solution dedicated to  
the cosmetics industry

# About BMI SYSTEM

BMI SYSTEM is a software design company dedicated to regulatory compliance for the healthcare industry.

Through the creation of bespoke solutions for a wide range of companies in the pharmaceutical, medical device and cosmetics industries, BMI SYSTEM has become the leader in the development of software dedicated to transparency and regulatory compliance.

The team, based in Paris, London, Brussels, Boston and Hanoi, has been built using a strong expertise in global healthcare regulations, software architecture and design, quality assurance and healthcare project management.

*"Right from the beginning, we have endeavoured to provide our customers with the most secure, flexible and functionally rich software to meet the stringent regulations and requirements of the healthcare industry. What differentiates us is the combination of our Life Sciences expertise with IT skills."*

Laurent Clerc, Regulatory Affairs Expert  
**BMI SYSTEM**

"NAYA is easy to use and is easy to deploy. More importantly, the methodology behind NAYA means that our solution is easily modified to meet our specific needs – fast and cost-effective. The BMI SYSTEM team is knowledgeable and responsive. They can make changes in NAYA in days what most software companies take weeks to accomplish."

Myriam AGOGUE, Legal Officer  
**NOVO NORDISK**

"BMI SYSTEM provides the pharmaceutical industry with a user-friendly and easy to use solution to comply with the regulatory requirements applying to the relationships with healthcare professionals. The strength of NAYA software is its adaptability to existing organisations.

The BMI SYSTEM team provides a deep knowledge and expertise, not just a software application, in order to help us tailor the tool and its processes to our organisation in the most efficient way and in accordance with the regulatory compliance."

Sylvie Le Moual, Chief Pharmacist  
**UCB PHARMA**
